

## The Discovery Center

The Discovery Center provides a safe, comfortable, home-away-from-home environment for your child. We offer full time as well as two and three day programs to fit your needs. We believe that the child's early learning experience should be fun, challenging, and enriching, building on acquired skills over the years. "We specialize in building self-esteem through positive interactions and mutual respect."

## School Age Program—The Penguins

Welcome to the School Age Classroom! We are please to have Miss Kelly Alonzo as our Lead School Age Teacher.

Kelly has been with our center since 2004, and also serves as our Program Director.

Kelly obtained her AAS Degree in Early Childhood Education in 1999, and continues to further her knowledge by attending 10 hours of workshops and classes every year. She is a dedicated teacher and administrator, and looks forward to having your child for the after school program.

### Developmental Focus

Kelly understands that school aged children require time to practice their independence, social skills, and academic knowledge. Her schedule allows opportunities to explore, experiment, and discover. Time is allotted for homework and quiet reading, as well as fun, learning activities and outside play.

### What to Bring

Each child is provided with a cubby space in which to store their backpacks and other personal items. We suggest leaving a change of cloths here for your child. No other items are required.

**\*We are a nut-free facility\***

### Daily Schedule
